

Peer Connection Opportunities

Join your peers from around the state for collaborative conversations and dedicated networking time through a series of Constituent Connection Roundtables and Staff Virtual Gatherings. Role alike conversations will be held once each quarter.

Community Book Club Series

We invite our entire CMF community of philanthropy to engage in a series of book club events, extending the dialogue from our 2020 Annual Conference keynote sessions. In June we will be reading “Beyond The Messy Truth” by Van Jones. And in September, we will discuss a book by one of our keynote speakers scheduled for our 2021 Annual Conference. We hope you will read along with us and come prepared to discuss and reflect on these important texts.
