

COMMUNITY FOUNDATION TECHNOLOGY ENDOWMENT GRANTS

The Community Foundation Technology Fund was established to provide a permanent endowment fund to support the ongoing technology needs of Michigan community foundations.

The following options are available:

1) Software Training: \$750/Foundation

Support for individual foundations to pay for software training of general ledger, donor or grants management systems. This option is limited to foundations with assets of less than \$10 million, with a maximum of \$750 available per foundation.

2) Team-up Grants: \$5,000/Three Foundations

Support of up to \$5,000 is available for a group technology/software project that benefits a minimum of three community foundations. This support could be used for group trainings or software development.

3) Transition Support - Choice of A or B:

A) Key Staff Turnover

This option will provide up to \$2,500 for foundations in need of software training in the event of key finance staff turnover.

B) Transition to Third Party Accounting Support

This option will provide up to \$2,500 for community foundations making a transition from in-house accounting to a third party provider, such as another community foundation, accounting firm or other appropriate provider.

4) Cybersecurity Audit Subsidy:

Support for community foundations with assets under \$50 million is available to subsidize the foundation's completion of the OST Information Technology Security Assessment process. Foundations should first contact OST to receive an audit estimate and should include their estimate with this grant application. For more information about the assessment and how to contact OST:

Grant levels are as follows:

Assets of \$1 - \$10 million: \$2,000

Assets over \$10 - \$25 million: \$1,500

Assets over \$25 - \$50 million: \$1,000

The support period for these grants is the CMF fiscal year, April 1 to March 31. When the funding for the year has been expended, the cycle will begin again the following April 1.
