Michigan Department of Treasury Quarterly Report - Deficit School Districts

On July 7, 2015, the Governor signed into law Public Acts 109-114, giving the Department of Treasury (the Department) additional financial authority and responsibilities over K-12 school districts, intermediate school districts (ISDs), and public school academies (PSAs).

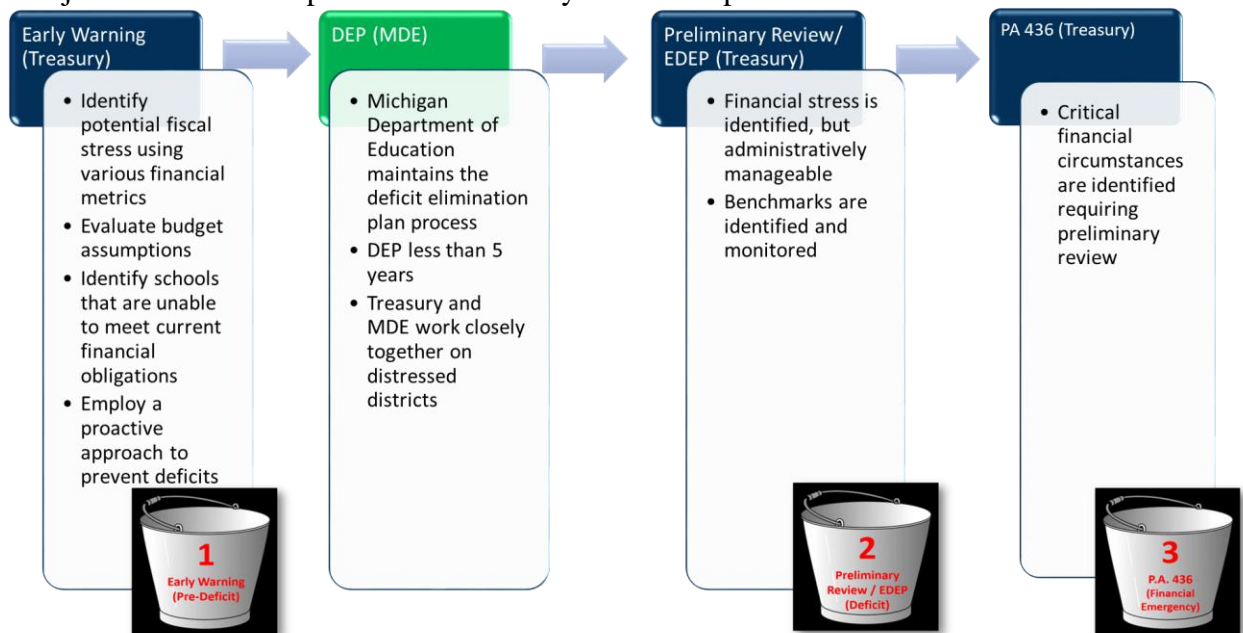

Pursuant to MCL §380.1219(3), the State Treasurer is required to determine whether or not potential fiscal stress exists within a school district, intermediate school district (ISD) or public school academy (PSA). Pursuant to MCL §380.1220(5), a school district, ISD, or PSA that has not eliminated its deficit within 5 years after the initial DEP is required to submit an enhanced DEP (EDEP) to the Department of Treasury. A school district, ISD, or PSA may also be required to submit an EDEP if they are determined to be subject to “rapidly deteriorating” financial circumstances.

The report is required by Public Act 111 of 2015, the Revised School Code Section 1220(2) provides as follows:

- (1) The State Treasurer shall submit quarterly interim reports to the legislature concerning school districts, ISDs, and PSAs that are subject to periodic financial status reports or are under an enhanced deficit elimination plan (EDEP).
- (2) The State Treasurer shall publicly present those quarterly interim reports to the appropriations subcommittees of the Legislature responsible for K-12 state school aid appropriations. This is the Department’s 15th quarterly report to the Legislature.

VISUAL OF PROCESSES

The joint role of the Department of Treasury and the Department of Education is shown below:

EARLY WARNING

Pursuant to MCL §380.1219(3), the State Treasurer is required to determine whether or not potential fiscal stress exists within a school district, intermediate school district (ISD) or public school academy (PSA); that an operating deficit may arise within a school district, ISD, or PSA during the current school fiscal year or the following 2 school fiscal years; or that a school district, ISD or PSA may be unable to meet its financial obligations while also satisfying the districts, ISDs, or PSAs obligations to provide public education services in a manner that complies with state law.

The Department uses 2 methods to determine the existence of potential fiscal stress. First, a projection model that extrapolates enrollment, revenue, expenditure, and fund balance for the subsequent two school fiscal years using weighted historical trends. Second, the Department pulls budget information from all ~900 district websites to track changes in revenue, expenditure, and identify decreases in fund balance greater than 50%. The Department has back and forth correspondence with identified districts, ISDs, and PSAs before making a final determination of whether potential fiscal stress exists. This includes requesting a corrective action plan, reviewing and evaluating the assumptions, and reaching out to district leadership for additional information where necessary.

Pursuant to MCL §380.1219(5), if the State Treasurer declares that potential fiscal stress exists within a school district, ISD or PSA, then the governing body has 60 days to enter into a contract with an ISD or authorizer to perform an administrative review as an alternative to Treasury oversight. An administrative review requires the contracted ISD or authorizer to provide a review and comparison of the district and applicable peers for financial practices, staffing, building capacity, transportation and other categories outlined in statute. Within 90 days after entering into the contract, the ISD shall complete the administrative review. School districts, ISDs, or PSAs that do not enter into a contract may be subject to Department periodic reporting.

2016 POTENTIAL STRESS

In our office's first year, 2016, 19 districts and PSAs were declared to have potential fiscal stress. Nineteen districts were identified using the financial projection model, and 1 district was identified through budget reviews. Out of the 19 districts, 15 have improved their finances and are no longer subject to early warning reporting, 2 incurred deficits, and 2 remain in potential fiscal stress:

2016	School District/PSA	Administrative Review ISD/Authorizer (Management Co.)	Identified
1	Flat River Academy	Saginaw Valley State University (Midwest Schools Services, Inc.)	Projection Model

2016	School District/PSA	Periodic Reporting ISD/Authorizer (Management Co.)	Identified
2	Multicultural Academy	Bay Mills Community College (Universal Management Company, LLC)	Projection Model

2017 POTENTIAL STRESS

In 2017, 8 districts were declared to have the potential for fiscal stress. Seven districts were identified using the financial projection model, and 1 district was identified through budget reviews. Out of the 8 districts, 4 have improved their finances and are no longer subject to early warning reporting, 2 incurred deficits, 1 closed, and 1 remains in potential fiscal stress:

Out of the 7 districts, 3 improved and are no longer subject to early warning reporting, 1 incurred a deficit, 1 passed a deficit budget for the current fiscal year and is thereby reporting to MDE, 2 closed, and there are no districts from this cohort remaining in potential fiscal stress.

2019 POTENTIAL STRESS

For 2019, 15 districts were declared to have the potential for fiscal stress on the list below. One district, Chassell Township in Copper Country ISD, improved their financials and has already been removed from potential fiscal stress. ENHANCED DEFICIT ELIMINATION PLANS

Pursuant to MCL §380.1220(5), a school district, ISD, or PSA currently operating under a deficit elimination plan (DEP) that has not eliminated its deficit within 5 years after the initial DEP was submitted to the Michigan Department of Education (MDE) is required to submit an enhanced DEP (EDEP) to the Department of Treasury. A school district, ISD, or PSA may also be required to submit an EDEP if they are determined to be subject to “rapidly deteriorating” financial circumstances, persistently declining enrollment, or other indicators of financial stress.

These districts are required to submit an EDEP for Department approval. In addition to providing an EDEP, these districts must provide additional cash flow and budget-to-actual reporting monthly in a form and manner approved by the Department.

Since 2015, 18** districts have been subject to a preliminary review or EDEP reporting. Of these 18 districts, 7 have eliminated their deficit and are no longer subject to Department oversight. The 11 remaining EDEP districts are as follows:

**Highland Park City Schools is eliminating its deficit through the capture of school operating taxes. Highland Park City Schools was converted to a PSA in FY 2012-13.

***Vanderbilt Area Schools will be amending their budget in June expecting to extend their EDEP to FY 2020.

****Principal drivers of Pinckney's 652% increase in the deficit is consistently declining enrollment (averaging over 7% per year over the last five years), coupled with a step increase given to teachers for fiscal year 2019.
