

**CUSTOMIZED SOLUTIONS.
TRUSTED SOURCE. UNPARALLELED
SERVICE.**

The Council of Michigan Foundations' (CMF) Consulting Services Network has been launched in response to member requests and as a new signature program in our suite of services.

The CMF Consulting Services Network is a diverse and highly skilled team of independent consultants with extensive experience providing unparalleled service to philanthropic organizations in Michigan.

Their diverse expertise and our network's flexible structure allows us to create customized solutions that can respond to even the most complex member needs.

What's more, the CMF Consulting Services Network is affordable. Partnerships with our consultants include a commitment to Michigan's philanthropic sector, allowing us to create a rate structure that makes world-class expertise accessible and affordable and very valuable benefit of CMF membership.

CMF has thoroughly vetted consultants that have direct expertise working with foundations, essential due to the unique characteristics of varying foundation business models and legal requirements.

Through a network/team approach, the client enjoys the opportunity for dynamic teams of consultants to fulfill the engagement so consultants can focus solely in their areas of expertise. Because of our network approach, it is possible to change or add consultants if different expertise is needed as the engagement evolves or to have CMF provide support from its core member services if appropriate to bridge gaps and manage costs.

CMF is committed to growing the impact of Michigan philanthropy through service to its members. As such, we seek to bring the highest value service for the lowest price possible while still assuring sustainability of CMF for continued service to its members.
